

**STREAM AND RIPARIAN CORRIDOR RESTORATION WORKSHOP**  
***INNOVATIVE APPROACHES TO***  
***STREAM STABILIZATION AND RESTORATION***

<b>DATES:</b>	July 29-31, 2008
<b>TIME:</b>	9:00 am to 5:00 pm
<b>LOCATION:</b>	US Army Corps of Engineers, Portland District Robert Duncan Plaza, 333 SW First Ave Portland, Oregon
<b>INSTRUCTORS:</b>	Dave Derrick, Research Hydraulic Engineer, & Dr. Rich Fischer Research Wildlife Biologist, Corps of Engineer's Research & Development Center (ERDC), Vicksburg, MS.

This exciting workshop will introduce the methodologies and procedures for initiating, planning, analyzing, and ultimately designing long-term sustainable river and stream stabilization or restoration projects. Innovative, environmentally sensitive, and cost-effective approaches to channel restoration will be discussed. Comprehensive case studies will also be presented. An agenda is available for more details.

A full day of field trips to local stream sites is included. Rain gear, waders, and field clothes are recommended for the second day. Each participant will receive a CD of all powerpoint presentations on Day 1. See travel information in Attachment 1.

*Workshop Sponsors:* U.S. Army Corps of Engineers Water Operations Technical Support (WOTS) Program and the U.S. Army Corps of Engineers Portland District

*Register early! Workshop space is limited!*
